Subject: Microsoft Settlement

To whom it may concern,

Microsoft continues to abuse its' customers, the general public, and the laws of commerce in our great nation. Their arrogance is most apparent in the way in which they have launched the latest version of their operating system and its' integrated software. Microsoft has flaunted the very settlement and suggestions of the DOJ and the prior trial judge. The new version of the operating system is even more anti-competitive!

Please reconsider, on behalf of the American people, your settlement offer.
